Unmet expectation/disappointment;  
unfairly treated

# HISTORY OF PEJABAT FARMASI BAHAGIAN SIBU

(formerly known as Makmal Ubat dan Stor Bahagian Sibu)  
Written by: Alan Lau Puon Hiet

The main supplier for these medical items, be it pharmaceutical products or raw materials was a British company named the Crown Agents of United Kingdom. Back then, the department was managed by dispenser and storekeeper until the year of 1970, Mr Leslie Teo Ah Hui was named as the first Superintendent Pharmaceutical Chemist in charge of Sibu Medical Store.

## Relocation: DPhLS Sibu

Photos on the right: View of Divisional Pharmaceutical Laboratory and Stores Sibu and the compound in the early 2000's

Sibu Medical Store was separated from the main building of Lau King Howe Hospital in 1971. It was renamed to Divisional Pharmaceutical Laboratory and Stores, Sibu (Makmal Ubat dan Stor Bahagian Sibu) and provide wider service coverage along the Rejang basin towards Mukah area, as well as the transit point to the upper stream of Rejang river in Kapit, due to its strategic location in the central region of Sarawak.

Sibu Medical Store was established in 1950 in Lau King Howe Hospital with two main functions:

1

To procure, store and distribute pharmaceutical products and medical equipment to government hospitals and health clinics throughout the Rejang basin.

2

To manufacture galenical products such as syrups, mixtures, creams and ointments.

A storekeeper checking inventories using Cardex system, an old system before the first computer was introduced in 1991.

Filling bottles using plastic hose was practiced before the bottle filling machine was available. Note that the bottles in the picture were cleaned beer bottles.

A classic view of making creams and ointments in Sibu Medical Store before commercial products were available in the market.

## IODISATION OF SALT

Salt Iodisation plant (left) and prepacking activity by the Pharmacy Assistants (right)

In 1959, there was a campaign launched as part of the government's initiative to lower the prevalence of Goitre among rural populations in the Rejang basin. The rural populations, particularly those who lived in the highlands and jungles, had a shortage of iodine. Hence, to iodize the coarse salt, a salt iodization plant was constructed in Sibu Medical Store. It was designed and constructed entirely by local mechanics. The green colored iodized salt was distributed via exchange basis with the coarse salt. The slogan 'Buy Green and Avoid Goitre' was used to promote the iodized salt to the public and the program was a huge success.

In year 2006, Sibu Medical Store was relocated to a Sarawak state building in Jalan Awang Ramli Amit when Lau King Howe Hospital walked into history and pave way for the establishment of a new Sibu General Hospital, a major tertiary hospital in the central region of Sarawak that houses vast specialty and services. Divisional Pharmaceutical Laboratory and Stores Sibu was later renamed to Divisional Pharmacy Office, Sibu (Pejabat Farmasi Bahagian Sibu) under the consolidation of functionality exercise by the Ministry of Health in year 2014.

## PHARMACY ENFORCEMENT

Sibu Pharmacy Enforcement (SPE) is an important component of the Divisional Pharmacy Office Sibu. In the early 2000's, SPE were led by the DPhO, only in year 2008 onwards, the services gradually expanded with the upsizing of manpower. Apart from enforcing the law, public education via awareness campaigns and stakeholder engagements made SPE an important referral center related to pharmacy laws and regulations for the central region of Sarawak.

Despite various challenges, Divisional Pharmacy Office, Sibu continues its effort to provide the best services to the public and to make sure its legacy sustained in the future for the benefit of the people of Sarawak.

## Senior Pharmacists of Sibu Divisional Pharmacy Office

Mr. Leslie Teo Ah Hui	1970 – 1977
Mr. Joseph Loi Lik King	1978 – 1982
Mr. Ting Inn Onn	1983 – 1989
Mr Patrick Lee Khee Ghee	1990 – 1995
Mr. George Wong Lai Khai	1995 – 2005
Mr. Tunku Hamdan	2005 – 2006
Mr. Benodict Apok Anak Talin	2006 – 2009
Mdm. Mardziah binti Suhaili	2009 – 2010
Mdm. Siti Fauziah	2010 – 2011

This webinar is a sharing initiative to provide awareness and used as a reference in terms of improvement and prevention methods if appropriate for the pharmacy staffs in the health facilities. In addition, the webinar also serves as a step to prevent occurrence or recurrence incidents / cases of medication errors among pharmacy staffs. All the webinar series include medication error case presentations from pharmacists on the brief summary of the incidents, contributing factors/ root cause and the corrective/ preventive actions that had been taken.

# 04 ➤ QUMC ACTIVITIES

Written by: Lim Su Ee

"Persidangan Kenali Ubat Anda Peringkat Kebangsaan 2023" was held on 20th June 2023 at Dewan Seri Siantan, Kompleks Perbadanan Putrajaya. The conference, organized by Pharmacy Practice & Development Program, Ministry of Health Malaysia, was aimed at strengthening the Know Your Medicines activity through a new era health literacy approach and empowering the community about the rational use of medicine, with a specific focus on individuals with visual, hearing, and speech disabilities.

The conference was attended by representatives from all States in Malaysia. Representatives from Sarawak are :

The conference began with an opening speech delivered by YBrs Puan Norhaliza binti A Halim, Pengarah Kanan Perkhidmatan Farmasi. She highlighted the significance of the Know Your Medicines initiative and emphasized the need for a comprehensive health literacy approach to empower individuals to make informed decisions regarding their medications. Puan Norhaliza expressed gratitude for the participation of attendees and stressed the importance of collaborative efforts in promoting responsible medication use.

**Mdm. Zanisah binti Ahmad Torky**

*Head of Pharmacy Management Branch, representing Sarawak State Deputy Director of Health (Pharmacy)*

**Mr. Stephen Ak Moses**

*Head of Sarawak State Pharmacy Practice & Development Branch*

**Mr. Lim Su Ee**

*Sarawak State Know Your Medicine Program Liaison Officer*

**Mr. Kamarudin bin Ahmad**

*Know Your Medicine Ambassador Coordinator*

**Ms. Adeline Sim Hui Tze**

*Know Your Medicine Ambassador Coordinator*

**Ms. Jessie Chin Ying Han**

*Know Your Medicine Ambassador Coordinator*

**Mdm. Loren Ak Mikai**

*Know Your Medicines Ambassador*

**Ms. Sia Mee Shian**

*Know Your Medicines Ambassador*

**Mr. Herwan bin Kari**

*Know Your Medicines Ambassador*

The officiating speech was given by YB Dr. Zaliha binti Mustafa, Menteri Kesihatan Malaysia. YB Dr. Zaliha commended the efforts of Know Your Medicine Program in raising awareness about the rational use of medicine and ensuring the well-being of the public. She emphasized the government's commitment to providing accessible and inclusive healthcare services, particularly for individuals with disabilities. YB Dr. Zaliha encouraged the audience to actively engage in initiatives that promote health literacy and underscored the role of community empowerment in achieving positive health outcomes.

The conference featured a series of informative sessions and interactive activities. Some of the agenda highlights were as follows:

"Forum Siti Awareness: Ubat Saya Ok Tak?": This engaging forum was moderated by Siti Hawa, a pharmacist and social media influencer. Three panellists, including doctors and pharmacists from different specialties, participated in a discussion aimed at raising awareness about the safe use of medications. The panellists shared valuable insights, discussed common misconceptions, and addressed participants' questions and concerns. This forum provided an opportunity for attendees to learn from experts and gain practical knowledge regarding medication safety.

**Pop Quiz:** A Kahoot pop quiz session was conducted during the conference to actively engage the participants and assess their knowledge about medication safety and rational drug use. The quiz questions were designed to reinforce key messages and enhance understanding among the attendees. The participants enthusiastically participated in the quiz, and prizes were awarded to the winners, creating a sense of healthy competition and promoting active learning.

**Sharing Session titled "Scan Dulu Baru Beli":** This informative session emphasized the importance of verifying the registration status of medications and other health products before making a purchase. The speakers highlighted the potential risks associated with unregistered or counterfeit products and educated the participants on the significance of product authenticity. Practical tips and guidelines were shared to assist attendees in making informed choices when selecting medicines, reinforcing the importance of responsible purchasing practices.

The Persidangan Kenali Ubat Anda Peringkat Kebangsaan 2023 proved to be a successful event in promoting health literacy and empowering the community to make informed decisions about their medications. The engaging sessions, interactive discussions, and informative presentations contributed to enhancing the participants' understanding of medication safety and rational drug use. The conference's focus on inclusivity by addressing the needs of individuals with visual, hearing, and speech disabilities demonstrated a commitment to equitable healthcare services.

We are confident that the knowledge gained and the connections established during this event will have a positive and lasting impact on the promotion of responsible medication use in our community.

Group photo with staffs on-duty for COVID Vaccination Program 2021

Photo with auditors post ADAP 2023

Work aside, life here is simple, peaceful and very much enjoyable. I love waking up to a beautiful panoramic mountain view outside my window. I love the after-work jogs, enjoying the fresh air and evening breeze. I enjoy saying "Hi" to little friends from Mother Nature like Rhinoceros beetles and Rajah Brooke's birdwing butterfly, and many more rare creatures that can only be seen in captivity in the cities but are abundant here. I love to pause and look up during on-call nights, and admire the glittery starry night sky. Despite the fact that I had to stay far from home, I felt warmth from the caring, friendly close-knit community here.

Some day in the future, I will have to leave and continue my service somewhere else. Until then, I will treasure every moment I have here and collect as many memories as I can.

A permanent post in Belaga that came to me in the middle of a pandemic, accepted without a second thought as my contract was coming to an end back then. Working in a small town far away in the jungle where the nearest hospital and retail pharmacy are at least 204km to reach, it's a brand new adventure. Now that the road condition has greatly improved, Belaga is easily accessible by road from Bintulu. There were days when district crossing was highly restricted and I had to make use of vaccine collection trips to run around Bintulu town to source for supplies such as insulin needles, spacer device, even nutritional milk powder and tube feeding syringe for patients. Other daily supplies can be easily obtained from local grocery shops.

## SPECIAL EVENT : CNY-RAYA- GAWAI CELEBRATION AT BPF JKNS

On 19th May 2023, Sarawak Pharmaceutical Services Division organised a triple celebration of Chinese New Year, Hari Raya Aidilfitri and Hari Gawai. Beautiful adornments and decorations were put up and all were the efforts of the hardworking staffs of the office. The theme Gong Xi-Raya-Gawai was selected to signify the celebration of all 3 holidays celebrated by the various staff members of the office.

In a uniquely Sarawakian way, the celebration incorporated the themes from all 3 celebrations; i.e. the rabbit for the Chinese Year of The Rabbit, the ketupat for Hari Raya Aidilfitri and the Terabai for Hari Gawai.

The office was made an open house a la rumah terbuka Hari Raya on the day. Staff from other offices were invited and celebrative foods were served.

Everyone had a blast on that day and to all reading this,  
Happy Chinese New Year!  
Selamat Hari Raya Aidilfitri!  
Selamat Hari Gawai!

## PHARMACY ENFORCEMENT CONFERENCE 2023

### DYNAMIC PHARMACY ENFORCEMENT BEYOND DIVERSIFICATION OF PHARMACEUTICAL TRADE

Picture 1: Pharmacy Enforcement Conference 2023 Theme

A delegation from the Sarawak Pharmacy Enforcement Branch attended the conference and was headed by Puan Nor Anizah binti Osman, Sarawak Deputy Health Director (Pharmacy) and Encik Benodict Apok anak Talin, Sarawak Pharmacy Enforcement Branch Head.

Overall, the Sarawak Pharmacy Enforcement Branch submitted 6 papers for the Research and Development (R&D) Category and 1 paper for the Quality Initiative Category. The list of papers submitted is as follows:

No.	Title	Authors	Category
1.	Compliance with the Malaysian Laws on Poisons and Sale of Drugs: A Retrospective Study in the State of Sarawak, Malaysia	Luqman Nulhakim Said, Loo Shing Chyi, Cannilia Kerine, Benodict Apok Talin, Lu Sing Ling, Lily Siao, Rachel Sii Zu Wen, Tan Sin Min, and Wan Aziyani Yazmin binti Wan Yeit	R&D

## ENFORCEMENT CONFERENCE 2023

Written by: Luqman Nulhakim bin Said

The inaugural Pharmacy Enforcement Conference 2023 was held in Dorsett Grand Subang, Selangor on 16th – 18th May 2023. The theme for the conference was “Dynamic Pharmacy Enforcement beyond Diversification of Pharmaceutical Trade”. The objectives of the conference were to understand the challenges and scenarios of pharmaceutical trade in Malaysia, to empower Pharmacy Enforcement Officers with knowledge and skills for investigating pharmaceutical crime cases in pharmaceutical trade diversity and to expand mechanisms of cooperation between the Pharmacy Enforcement Division, local and international agencies for the prevention of illicit pharmaceutical trade.
